WHY STUDENTS LOVE TALK

Magda Beltrán Roldán
Colombia
TALK Boston

"I want to thank the TALK Boston staff for receiving me and welcoming me as a member of the TALK family! I learned about so many cultures and met people with different beliefs from all over the world."

Lucca Saviello
Brazil
TALK Aventura

"Friends recommended TALK and said it's a very good school. The quality of education is excellent for the price."

A SCHOOL THAT CARES

The happiness and well-being of our students are our most important considerations. Our staff are nurturing and compassionate and work hard to ensure that students are: Safe and secure; Progressing at an optimal rate in their studies; Comfortable at the school and in their accommodations; and Enjoying an active and rewarding social life.

ACADEMIC EXCELLENCE

Our goal of academic excellence is based on the integration of the most effective Teaching Methodology, Outstanding Teachers and the best Curriculum & Interactive Technology.

Teaching Methodology

We utilize the Communicative approach to language acquisition, teaching students to communicate in English rather than repeating grammar exercises and phrases. The curriculum is based on subject matter and topics of interest to students, encouraging active participation in classroom discussions and activities. This promotes confidence and stimulates learning.

Outstanding Teachers

Our teachers are among the best in the industry. They are qualified, experienced native level English speakers with a passion to teach. Trained in our teaching methodology and using the latest course materials and technology, our teachers are able to adapt to individual learning preferences while maintaining the students' high level of interest and motivation.

Curriculum & Interactive Technology

The integration of our curriculum with interactive technology brings lessons to life so students can immerse themselves in the language acquisition process. This integration facilitates the access to online subject matter, the improvement of listening and comprehension skills and the playing of games specifically designed to make English language learning fun.

TALK teachers create engaging lessons for their students

TALK students value our interactive approach to learning

"Learning is a fountain from which you can drink forever."

TALK STAFF & TEACHERS

Sandra Falcon

Teacher, Professional Development & English Programs

TALK MIAMI

Years at TALK: 4

City, Country of Birth: Manhattan, New York, Eastern US

Favorite Place: San Fruttuoso Bay, Italy. As I sailed into this crystalline inlet dipped in Mediterranean blue, a medieval abbey came into view and the earthy scent of nature filled the air. I held my breath just to take it all in.

Q: *What do you love about teaching?*

A: What I relish about teaching is the challenge of ensuring that our international students are self-confident and firmly poised to lead in the global marketplace using proven communication and negotiation skills.

Q: *How do you motivate your students?*

A: By using the Aristotle teaching method of discussion as a specific technique of "creating knowledge". I encourage students to preserve the "integrity of knowledge" by engaging in research analysis so as to make educated decisions.

Q: *How can a student make the most of their time at TALK?*

A: Students at Talk would make the most of their time by being highly engaged in the classroom, specifically in the online professional development program, whereby the instructor invites guest speakers and uses top-rated case studies to prepare the students to be in leadership positions.

Roberto Quintans

National Academic Coordinator

TALK ENGLISH & BUSINESS SCHOOLS

Years at TALK: 7

City, Country of Birth: Havana, Cuba

Favorite Place: Naples, Florida, where I have admired the most stunning sunsets from the Old Pier

Q: *What do you love about teaching?*

A: One of the things I love the most about teaching I learned early in my professional life: Teaching is learning. It is not only the pride you feel when passing knowledge on to others, or the satisfaction you experience when seeing the progress of your students, it is also the fact that with every class there is something new you learn from your students, or the teaching style that you used. That giving and receiving is very recomforting.

Q: *How can a student make the most of their time at TALK?*

A: By integrating and immersing themselves into the multicultural environment, not only in the classroom, but also the city they are living in. By using English at all times. By feeling unsatisfied with what they learn in the class, and thus, wanting more.

EXPLORE NEW PLACES WHILE IMPROVING YOUR ENGLISH!

Lucas Pereira
Brazil
TALK FORT LAUDERDALE

“Every week the school plans activities like going bowling or shopping, so that the students can have a good time and get the opportunity to meet each other. That is joyful not only because it helps the students interact, but also because it keeps our minds going in English.”

Satsuki (Minnie) Umemuro
Japan
TALK SAN FRANCISCO

“The most important thing that I thought since I came here is cooperation. When I came to TALK, I didn’t know how to get a train ticket, how to use a washing machine or how to pay for food at the grocery store. My friends at TALK always helped me. Also they took me to the places that I wanted to go.”
